

HARDING VIEWS VARIED ISSUES

Situation, Packer Control and
Army Building Program Feat-
ure Day's Discussion

BINET PLANS DARK

Announcement of Selection of Sec-
retary of State and Treasury
Is Expected Soon

Washington, Dec. 29.—A wide variety
of subjects, including the coal situa-
tion, packer control and the army
building program, were talked over by
President-elect Harding today in a
conference, which kept him busy
until early morning until late at

night. Production problem was pre-
sented to him by Daniel L. Wentz,
of Indiana, president of the National
association, who furnished de-
tails about the present
of production and the outlook
for the coming year. Mr. Harding
asked many questions on the subject
and was not indicated what attitude
he was taking regarding governmental regu-
lation of the industry. Mr. Wentz
was accompanied by Fred Upham,
a prominent coal man, who
was a member of the Republican Na-
tional committee.

Sees Livestock Dealers

The subject of naval construc-
tion, the President-elect sought infor-
mation from Representative Patrick
McHenry, chairman of the
sub-committee, which handles
appropriations. Means of cur-
rowing down expenditures without cri-
minal defense were discussed.
Mr. Kelley suggested that the
present building program
being completed an international
treaty might be perfected for lim-
its of armament. He also urged
the naval reserve plan be perfect-
ed an inexpensive guarantee of suc-
cessful naval personnel.
Committee from Chicago, headed
by D. Stanford, president of the Chi-
cago stock exchange, took up with
Harding the question of govern-
ment regulation of the livestock in-
dustry and presented a plea that dur-
ing the next four years the business
should not be harassed unduly by le-
gislation. They asked that a
policy of agriculture be selected in
conjunction with that policy, but said
that they had not put forward
any particular candidate.
Mr. Stanford was Everett D. M.
Starnfield of the National
stock exchange, and Kay Wood,
head of the organization's legisla-
tive committee. All members of the
committee expressed confidence that
President-elect would inaugurate
policy to reassure and stabilize
the industry.

Chicago Editor Calls

Another caller was Victor F. Law,
publisher of the Chicago Daily
which said his conference covered
various domestic problems.
Mr. Warren of Detroit, former
Republican national committeeman
and had been at Harding home.
The day brought no outward de-
monstrations regarding cabinet selec-
tion. The impression was given
that the President-elect was close to
a final choice. It has been gen-
erally expected that the first to be
named will be a secretary of state
and secretary of the treasury.
The President-elect is to
with Will H. Hays, prominently
named for postmaster general or
chief of the interior, and with
Mr. Phillips C. Knox, of Philadel-
phia, who with Charles E. Hughes,
senior in the field of recent specula-
tion in the secretaryship of state,
were at Harding headquarters.
The call of Mr. Hays and
Mr. Knox was concerned primarily
with arrangements for the inaugu-
ration. The Pennsylvania senator is
chairman of the congressional com-
mittee on plans for the cere-
monies and he will come to Marion
with Mr. McLean, chairman of the in-
terior committee.

ARCH EXTENDED

FOR LOST ARMEN

Residents of Sparsely Settled Cana-
da Wilds Are Cautioned to Be
Lookout for Lost Balloon

Montreal, Ont., Dec. 29.—Officers
of Canadian mounted police have
extended their efforts to find
the remains of the American naval
air station from the Rockaway
point for more than two
miles to the Quebec side of Lake
St. Lawrence. Sergeant Joy telephoned
from that section directing
officers to notify the police if any in-
formation is obtained.

It is reported that tonight no report
had been received from the
searching district. Through the
region there is only a small settle-
ment on the shore that is wooded
and only sparsely settled. The
officers of the farms there are many hun-
dreds of miles from the coast. It is
said that the searchers have been
in the region for several days before they
communicate with the outer

M'KINLEY ESCORT HONORED BY HARDING'S SELECTION

Washington, Dec. 29.—Troop
A, First Ohio cavalry, Captain
Ralph Perkins, of Cleveland, com-
manding, has been designated to
act as President-elect Harding's
escort in the inaugural parade.
E. B. McLean, chairman of the
inaugural committee, was informed
of the selection today by Senator
Harding.

Troop A is the same organization
although with changed personnel,
that acted as personal escort to
President McKinley at his inaugu-
ration.

SAND MEN ACCUSED IN FEDERAL PLAINT

Violation of Sherman Anti-Trust
Act Alleged in Indictments
Returned Yesterday

New York, Dec. 29.—The federal
government added its legal flail to the
whips of New York state's "trust
smashing" organization today by re-
turning indictments charging viola-
tion of the Sherman anti-trust act
against four sand concerns and 11 in-
dividuals recently investigated by the
joint legislative committee sitting here.

These indictments, the first of a
federal nature to be returned in con-
nection with the "building trust" in-
quiry accumulated upon more than
120 indictments returned by a trial
of grand juries co-operating with the
legislative investigation. The defend-
ants will appear for pleading tomor-
row.

Meanwhile the committee, before an
audience of business men that packed
the chamber, uncovered some of the
most extensive co-operative organiza-
tions of manufacturers and contract-
ors, which daily inquiry over 10 weeks
has brought forth. It was shown that
hundreds of firms in all lines of trade
throughout the country, exchange,
through clearing houses, the names
of prospective buyers, their bids and
signed contracts and also daily re-
ports of stocks on hand and ship-
ments.

These practices, carried on under
programs advocated by the late Ar-
thur Jerome Eddy, and his economic
disciples, were characterized by Samuel
Untermyer, the committee counsel,
as "team work to fleece the people."
Their legality is involved in the case
against the American Column com-
pany, now before the United States
supreme court.

A Chicago attorney, William J.
Matthews, acting as counsel for a
group of several of the societies, ad-
mitted in testifying today that he was
employed to steer the concerns hand-
led together under his direction "within
the anti-trust laws." Among the other
men who are similarly employed in
the country, he named Clark McKir-
cher, formerly with the anti-trust di-
vision of the department of justice.

TRUNK LINES LOSERS SAY CENTRAL HEADS

Discrimination Is Alleged in Redi-
vision of Joint Freight Rates
as Proposed

Washington, Dec. 29.—Attorneys
for the New York Central railroad at
a hearing today before the Interstate
Commerce commission on the ques-
tion of reducing joint freight rates be-
tween carriers east and west of the
Hudson river argued that plans sug-
gested so far for this purpose would
yield an unfair return to the New
England roads and would discriminate
against the trunk lines.

George M. Eaton, assistant freight
manager of the Boston and Maine
railroad, suggested to the commission
that arbitrators be established as tem-
porary means of dividing the rates
until the commission revised the en-
tire division plan of interchanged rate.
He suggested that the division be on
a percentage basis, according to the
length of haul from New England
points to the Albany gateway, and
thence over trunk line territory.

Chairman Clark asked Mr. Eaton
if he believed the commission had
the power to make such a ruling in
the absence of an express agreement
by the interests involved. Mr. Eaton
said he could not answer the question,
as it was a matter of law.

New York Central attorneys on cross
examination tried to show that Mr.
Eaton's rate exhibit which he had sub-
mitted on a basis of a proportional
division of freight rates, would work
to the disadvantage of their roads. Mr.
Eaton said he was aware of the high
terminal charges in New York and
had based his exhibit on existing
charges. He admitted that terminal
charges were generally less in New
England than in New York.

JAZZ MUSIC MUST GO

Chicago, Dec. 29.—The demise of
Jazz music and a renaissance of good
music were predicted by delegates to
the National Music Teachers' associa-
tion today. "Music," declared R. G.
McCutcheon, secretary of the associa-
tion, "will give the country the emo-
tional stimulus formerly taken by
beoze. A singing nation is a content-
ed nation; music will drown out the
insidious mutterings of red agitators."

LARCENY COUNT NAMES TRAVIS

Comptroller-Elect Wendell and Al-
bert L. Judson, Wealthy Secur-
ity Dealer, Are Also Accused

ALL DENY CHARGES

Bail of Each Is Fixed at \$5000 and
Friday as Time For Filing
Any Desired Motions

New York, Dec. 29.—Indictments
were returned today against State
Comptroller Eugene M. Travis, Com-
ptroller-elect James A. Wendell and Al-
bert L. Judson, wealthy dealer in se-
curities, charging them with grand
larceny and fraudulently auditing the
comptroller's books.

Four indictments were returned
against each defendant. The charges
grew out of the recent investigation of
the comptroller's office, at which time
it was testified that securities were
bought for the state above their mar-
ket values and that Judson acquired
profits of approximately \$1,000,000.

All Plead "Not Guilty."

All pleaded not guilty and were re-
leased on \$5,000 bail each. They were
given until Friday to withdraw or
amend their pleas and make necessary
motions.

In returning the indictments, the
grand jury declared it deemed it "to
be our duty" through the court to call
the attention of the state legislature
and the governor to the "extreme lax-
ity of the methods" by which some
\$1,000,000 of the state money was
invested.

"These methods, in our opinion,"
the jury said, "do not properly safe-
guard the interests of the people. We
recommend that the legislature devote
serious effort to the correction, by
suitable legislation, of the abuses
which underlie methods have charac-
terized the investment of the public
funds."

During the Travis administration,
virtually all of \$31,000,000 worth of
municipal bonds had been purchased
from a small group of New York brok-
ers, at times for prices in excess of
other bankers' quotations, assistant
District Attorney Peacor charged dur-
ing the inquiry into the comptroller's
office. Among the bond dealers men-
tioned were William S. Fenshawe,
George B. Gibbons, Colonel William
Fairbairn and Judson.

"Moral Obligation Purchase"

One of the transactions brought out
in the investigation was that known
as the "moral obligation purchase" in
which \$2,012,000 worth of New York
city bonds were bought from Fenshawe
and company at seven points
above the market price, with an al-
leged resultant loss to the state of
\$150,000. Another transaction stressed
by Peacor was the purchase of \$2,250,-
000 worth of bonds through the Met-
ropolitan Trust company, which were
said to have been bought by Judson
with state funds and then transferred
to the state at an advance in price.

In connection with the latter deal,
a letter "authorizing" Judson and the
Metropolitan to enter into the transac-
tion, was read into the record. The
letter bore the alleged signature of
Wendell and was written on official
stationery. Both Travis and Wendell
denied its authorship and character-
ized it as a "mistake."

Comptroller Travis declined tonight
to issue a formal statement on his in-
dictment.

"I have no statement to make at
this time," he said. "All I can say
now is that I am innocent of the
charges made against me and my in-
nocence will be shown in due time."
"Not a word," was Mr. Wendell's
comment.

Albert Judson, the broker, who is
almost blind, merely said "Indictments
seem to be as popular nowadays as ap-
pendixes used to be."

CORNELL MEN FACE TOUGH RACE TODAY

Drizzling Rain All Day Makes Eng-
land's Roehampton Course
Muddy and Heavy

London, Dec. 29.—(By the As-
sociated Press).—A steady drizzle
throughout the day will make Eng-
land's "classic and cruel" seven and a
half mile cross country course at Roe-
hampton a muddy and heavy route for
the Cornell and the Oxford-Cambridge
distance runners, who will compete to-
morrow afternoon in the first race of
its kind between English and Ameri-
can athletes.

James L. Dickinson, captain, Thomas
C. McDermott and Charles T. Brown,
of the Cornell squad are suffering
from colds and are not in the best
of condition. This, however, is offset
by an injury to E. A. Montague, the
Oxford star, who, although he is ex-
pected to start in the race, is suffering
from a sore toe.

Jack Moakler, the American coach,
asserted today that Cornell had no
runners to compare with Montague
in A. A. McInnes and W. R. Steagrove,
but that in the scoring the Americans
might win the race.

PARENTAL CONSENT HALTS AERIAL HONEYMOON PLANS

Nashville, Tenn., Dec. 29.—A
big airplane stood tuned up and in
readiness all of today at Hampton
field, near here, to carry two young
aviators on a honeymoon trip to
California.

One of the aviators, E. E. Un-
derhill, of New Brunswick, N. J.,
with his bride of a day, formerly
Miss Marie Therese Chambers, a
trained nurse of Palm Beach, Flori-
da, was ready and anxious to
board the plane for the trip three-
quarters of the way across the con-
tinent. But his dying partner, J.
A. MacMullin, had met with last-
minute difficulties. His fiancée, also
a nurse, was refused permission to
leave the hospital to which she is
attached until the consent of her
parents in Des Moines, Iowa could
be obtained. Prospects of the two
aviators "hopping off" today van-
ished as night came on without the
awaited consent from Des Moines.

FRENCH 75'S TO HAIL MILLER AS GOVERNOR

Battery A, First Field Artillery, N.
G. N. Y., Syracuse, Will Use
Same Guns Used in France

Syracuse, Dec. 29.—Firing the same
French 75s which the Seventh field
artillery, the famous gunning outfit
of the First division, used against the
Huns, Syracuse soldiers, members of
Battery A, First field artillery, N. G.
N. Y., will render the gubernatorial
salute of 19 guns to Governor-elect
Nathan L. Miller when he is inaugu-
rated at Albany on New Year's day.

Headed by Captain Oscar Brown,
commanding officer, and Lieutenant
Charles E. Stanton, two sections of
the battery will leave here Friday af-
ternoon to attend the inaugural ball
on New Year's eve and fire the salute
the next day.

Sixty more acceptances for the spe-
cial Syracuse party of friends of the
governor-elect are necessary to insure
a special train to carry the party to
the inauguration in Albany New
Year's day. Complete arrangements
for the party have been made, includ-
ing reservation of the much-sought
seats in the assembly chamber for the
inauguration ceremonies, and it is ex-
pected that the roster of the party will
be completed soon.

By special arrangement with Sec-
retary of State Francis M. Hugo and
his successor, John J. Lyons, the
Syracuse party will be seated in a
special section of the assembly cham-
ber to watch the inauguration of the
first Syracuse elected governor. The
inauguration parade will be reviewed
from the commodious quarters of the
senate finance committee on the sec-
ond floor of the capitol.

Every arrangement for the comfort
of the members of the party has been
made. If the special train is engaged,
it will consist of four Pullman chair-
cars and two diners. By reason of the
early hour at which the start will be
made, breakfast will be served on the
train.

After the ceremonies, a luncheon
will be served at the Ten Eyck hotel,
after which the party will go to the
executive mansion to attend the in-
augural reception and to greet Gov-
ernor and Mrs. Miller.

The homeward journey will begin
at 3:55 o'clock, with the proposed
special following immediately after
the Twentieth Century Limited, and
reaching Syracuse shortly after 9
o'clock. On the return trip a special
New Year's dinner will be served.

UNIONS MUST FIGHT SAYS REV. J. A. RYAN

American Association for Labor
Legislation Discusses Protection
of Workers at Annual Dinner

New York, Dec. 29.—Industrial con-
ditions in the United States and the
need of labor laws for the protection
of workers were discussed by speak-
ers at the dinner here tonight of the
American Association for Labor Leg-
islation, which opened its fourteenth
annual meeting this afternoon. Rev.
John A. Ryan, professor of industrial
ethics of the Catholic university of
America; Rabbi Stephen S. Wise of
the Free Synagogue, New York city,
and Whiting Williams, formerly vice
president of the Hydraulic Pressed
Steel company, were among the speak-
ers on the program.

Plans to urge immediate passage by
congress of a bill extending the work-
men's compensation act to provide
accident insurance to longshoremen
and sailors were discussed at the op-
ening session of the meeting this af-
ternoon.

Officers of longshoremen's and sea-
men's unions spoke.
Speaking on state intervention versus
Industrial Autocracy at the dinner to-
night, Rev. Ryan declared "the trade
unions must fight hard as they know
how against the attempt to destroy
them, and all friends of justice must
redouble their efforts to improve con-
ditions of employment by legislation."
The "one means" which, he said,
will suffice for this purpose is a con-
siderable measure of individual own-
ership by the workers of the tools of
production through co-operative or-
ganization.

POET WARRIOR ENDS CONQUEST

D'Annunzio Cedes His Power to
Municipal Council of Fiume in
Virtual Surrender

QUITS CITY BY 'PLANE

"It Is Not Worth While Dying for
Italy" Proclamation Issued by
D'Annunzio Says

Rome, Italy, Dec. 29.—D'Annunzio
has issued a proclamation declaring
that it is not worth while dying for
Italy. He said he was leaving Fiume
by airplane.

This was semi-officially announced
here this afternoon, together with
the announcement that the Fiume agree-
ment may be regarded as concluded.

Rome, Italy, Dec. 29.—Settlement
of the Fiume question based on recog-
nition of the treaty of Rapallo, dis-
bandment of d'Annunzio's legionaries
and general amnesty is expected some-
time today following receipt of late
advices from the blockaded area. The
suspension of hostilities previously or-
dered has been prolonged.

Negotiations for surrender are pro-
ceeding with the municipal council
of Fiume, to which d'Annunzio has
ceded his powers.

Guerrilla Warfare at Last

A description of the last phases of
the struggle in Fiume, received here
today, show that the legionaries re-
opened fire against the troops who
were merely holding the positions they
had taken Monday night.

The fight assumed the character of
guerrilla warfare all along the line. The
legionaries took advantage of the nat-
ural resources of the terrain for lay-
ing ambushes.

As the regulars were advancing
across orchards they were enveloped
by fire from machine guns which had
been sunk to the level of the ground
and cleverly camouflaged.

The houses seemed to have been
abandoned, but when the troops ap-
proached, the legionaries hidden be-
hind windows, behind chimneys and
on balconies and roofs, suddenly op-
ened fire. Even women were found
working machine guns.

The graves losses were inflicted by
hand grenades, which were used so
freely as to give the impression that
scores of thousands. It would have
been an easy matter to get the better
of the legionaries by employing ar-
tillery, but the military authorities re-
fused to take such recourse except
against military buildings.

Tried to Force Regulars

The legionaries ultimately tried to
force the regulars to retreat in order
to relieve pressure on the city, but
failed owing to the stubborn resist-
ance, especially of the carabinieri and
the Alpine troops, who fought coura-
geously for more than three hours.
The points where the struggle was
hottest was near the railway station
and inside the Fiume cemetery.

Colonel Maioli, head of the staff
of the 45th division, has issued an
order saying "All officers were at the
head of their men without exception,
even those attached to the staff."

Colonel Maioli led all his officers to
the attack. What the regulars espe-
cially resented was the insult levelled
at them by the legionaries. A cala-
bress soldier who had his leg broken
said while being carried off on a
stretcher: "The insult hurt me more
than the wounds."

BAR INDUSTRIAL ALCOHOL FROM INTOXICANT STOCKS

Washington, Dec. 29.—Wholesale
liquor dealers are forbidden to deal
in both industrial alcohol and intoxicat-
ing liquors under a new prohibition
regulation issued today by the bureau
of internal revenue.

Under the bureau's regulations,
wholesale liquor dealers now holding
permits to deal in industrial alcohol
exclusively, and other wholesale deal-
ers, who heretofore desire to deal in
such alcohol, may receive 30-day per-
mits to purchase tax paid industrial
alcohol in stamped containers, but no
such permits will be issued to persons
licensed to deal in intoxicating liquor
in wholesale quantities.

MRS. CHARLES M. DOW DIES

Jamestown, Dec. 29.—Mrs. Charles
M. Dow died at her home here this
morning. She was president of the
New York State Federation of Wom-
en's clubs in 1902 and 1904, and was
long identified with the New York
Society of Women. Her husband, a promi-
nent Jamestown banker, died three
weeks ago.

ASKS \$3,750 PENSION

New York, Dec. 29.—Application
of Supreme Court Justice Peter A.
Hendrick for retirement on a pension
of \$3,750 a year, half of the portion
of his salary paid by the city, was
filed with the board of estimate to-
day. He is said to be the first surviving
court justice to do so.

MORE DUBLIN RAIDS

Dublin, Dec. 29.—The military to-
day made extensive raids and searches
of residences and business establish-
ments throughout Dublin. In Rutland
square alone 500 soldiers made a house
to house inspection, and about a score
of young men were arrested.

PROFIT SHARING PACT NOW CAUSE OF STRIKE

Newbern, N. C., Dec. 29.—Dis-
putes of the Newbern Iron Works
and Supply company, voted today
to disregard the profit sharing
agreement recently entered into
with the company and to go on
strike. Pay refused to the work-
ers last week, the first under the
new plan which was based on profits
of the concern above operating
expenses, amounted to a reduction
of 10 percent from the amount re-
ceived the previous week.

TWO APPROPRIATION BILLS REACH HOUSE

More Than Usual Preliminary Scrutiny Is Indulged In Because
of Threatened Cuts

Washington, Dec. 29.—Two of the
15 bills carrying appropriations to run
the government during the year be-
ginning next July 1, reached the house
today and were given more than the
usual preliminary scrutiny because of
the unannounced intention of Republican
leaders to cut government expendi-
tures.

The sundry civil bill, which contains
the miscellaneous appropriations as
reported carries a total of \$532,611,-
292. This total represents a slashing
of \$29,514,192 from the estimate sub-
mitted by the government department,
and a reduction of \$52,237,514 from
the amount appropriated through the
same bill last year.

The cut in estimates for the post-
office bill, the other appropriation
measure submitted, however, was not
so great and the expenditure recom-
mended represented a considerable in-
crease over this year's appropriation.
The measure as reported carried
\$573,561,721, a reduction of \$11,442,-
181 from the amount asked by the
postoffice department, but an increase
of \$89,330,021 over the appropriation
of the current year.

Democratic leaders were prompt to
point out that the sum total carried
by both bills, if passed as submitted by
the appropriations committee, would
add about \$17,000,000 to the cost of
running the government next year. Re-
publican leaders were equally prompt
in declaring that there was abundant
ground for gratification on their part
inasmuch as they had used the prun-
ing knife on estimates of Democratic
department heads without mercy.

Outside of the \$225,000,000 pro-
vided for the care of the disabled serv-
ice men and dependents of those killed,
the sundry civil measure left only
\$160,611,292 for all other purposes, as
compared with \$125,000,000, the
amount appropriated for 1919.

The committee reported that the in-
crease in the postoffice appropriation
was due principally to the \$10,000,000
increase in the pay of city letter car-
riers; the \$36,000,000 increase allowed
the railroads for mail transportation
and the \$12,500,000 increase in pay
of clerks and employees.

REDUCE FEDERAL LIQUOR PERMITS

New Licenses Will Be Held to
Strict Minimum to Check
Illegal Sales

Washington, Dec. 29.—(By The As-
sociated Press).—Plans for reducing
the number of federal permits for the
handling of liquor in the next 12
months were announced today by Pro-
hibition Commissioner Kramer, who
said the new issue of licenses would
be held to a strict minimum, in an ef-
fort to check illegal liquor sales.

The greatest reduction will be in
wholesale permits under Mr. Kramer's
program, but other dealers entitled to
operate under the Volstead act will
also be considerably affected. The
commissioner said "it was his intention
to refuse to re-issue between 50 and
75 percent" of the wholesale licenses
now in effect.

The enforcement staff has been en-
gaged for several months in studying
the records of the issue of permits
holders to ascertain who has commit-
ted overt acts under the prohibition
statutes with the view of eliminating
them from the list of those who may
handle intoxicants during the next
year.

The bureau has been aided in this
task, Mr. Kramer said, by the failure
of many to apply for new permits.
This is especially true of the whiskey
dealers, he added. The number who
desire renewals of retail licenses, how-
ever, has not decreased markedly, ac-
cording to the commissioner, al-
though hundreds of them will be re-
fused because of their records during
the first year of operation of the Vol-
stead law.

The prohibition bureau was said to
be giving some attention, also, to the
issue of liquor by retail agencies. Al-
though enforcement agencies have ex-
amined records of dealers in some
communities and, for the most part,
have found little reason to revoke or
cancel permits, it was indicated that
in the future the druggist who trans-
acts the regulations prescribed for
retail sale will find himself unable to
handle distilled spirits of any sort.
Scrutiny of this class of dealers is ex-
pected to be extended more closely
the next year.

HAS LONG HUNT FOR LOST BILL

Senator Ashurst, Democrat, Ari-
zona, Spends Whole Day Trail-
ing Mine Assessment Measure

NO ACTION TAKEN

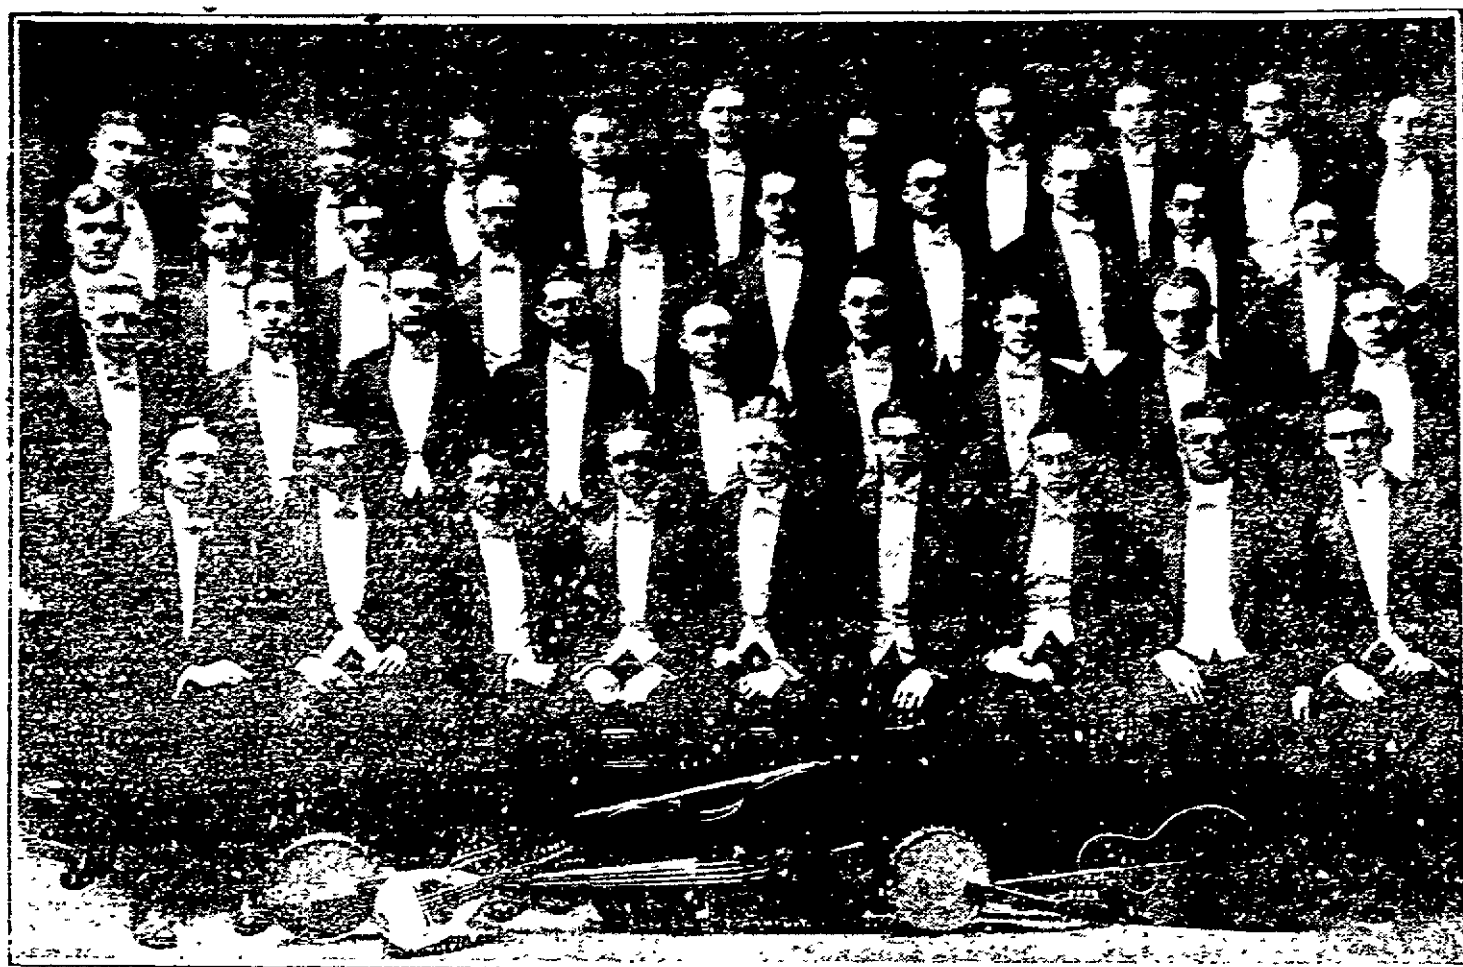

Demands of Constituents Sends
Senator on Neary Futile Quest
in Many Departments

Washington, Dec. 29.—Pressed by
his constituents for information as to
the fate of the mine assessment bill,
sent by a majority to the President,
December 11, Senator Ashurst, Ariz-
ona, today spent several
hours trailing the measure through the
executive offices, the interior depart-
ment and even the White House. He
found out nothing about the fact
that the President had not yet signed
the bill.

The senator from Arizona, bent on
his mission of obtaining information,
walked into the White House execu-
tive offices shortly after 1 o'clock and
found Secretary Tumulty absent. Be-
ing told that the bill which he was
seeking information about was with
the President and having pressed
White House attaches vainly to an-
nounce to the President his desire for
a conference, Senator Ashurst walked
directly up the path leading to the
residential section of the White House
declaring that "As an American citizen
and a United States senator" he pro-
posed to obtain information.

"Attacks" White House

At the White House door, the sen-
ator was met by an attendant who led
him to a seat within and went to seek
Mrs. Wilson. The President had just
finished his luncheon and had retired
to his study on the second floor.
Mrs. Wilson directed the attendant to
tell the senator he would have to take
up his business, first with Secretary
Tumulty, as the bill

ONEONTA CLUB BOWLERS WIN.

Defeat Squad Representing Y. M. C. A. in Match Last Night.

Bowling teams representing the Oneonta club and the Y. M. C. A. met in an "exhibition match" at the club alleys last night, and the score board at the end of the controversy showed the clubmen had carried off all three games, and were 75 pins ahead of the association squad. McKean was the high man for the club, while Lambros "knocked 'em cold" for the "Y." with Graves a close second.

The two teams expect to get together again in the near future on the "Y" alleys, when the association men will try to turn the tables.

Last night's scores follow:

WOMEN WILL AID FUND.

Miss Florence Wardwell Woman Chairman for State of Relief Council.

Miss Florence Wardwell of Springfield Center and New York has been designated as woman chairman for New York state in the work of the European Relief Council, of which Mr. Hoover is chairman and for which a local committee and The Star have been raising funds.

Miss Wardwell is very desirous that the women of Oswego county give the project hearty support and help to bring the total subscriptions from the county to a generous amount and by enlisting the churches and all civic organization in the campaign.

She has designated Mrs. H. W. Lett to act as woman chairman for Oswego county and requested her to enlist the support of some capable woman in each town of the county to aid in the work.

In a note relative to the project Miss Wardwell writes:

"It is such an appeal as we have not had since the armistice was signed, and we should all do all we can to have Oswego county give liberally. Here are children that America has been feeding since 1918, and we cannot leave them to perish when she saves a child. This will do less for the last chapter of our magnificent work in Europe under Hoover."

It is hoped that by January 1st, being the sum raised in Oswego county up to the full quota. No definite statement of the amount expected from the county has been forwarded, but it will doubtless be received in a short time.

SENTENCE BANK PRESIDENT.

Barre, Vt., Dec. 29. — A sentence of four to six years of hard labor in state prison was imposed Tuesday on Frank G. Howard, president of the Barre Savings and Trust company, after he had pleaded guilty to embezzlement of the bank funds. The charges on which he was arraigned were that he had stolen \$10,000 from the bank, and that he had obtained an extension of time to pay the same by fraud.

Howard suffered a nervous breakdown when sentence was pronounced.

1920 Bills in 1920.

During December we try to collect up and also pay up all bills and start a clean page January 1. Bring in bills or checks and balance up ready for the New Year which will be the happy for this new start. H. M. Burdick, Son, Insurance, & Bond Street.

RAILS TAKE SPURT IN STOCK TRADING

Dividend Paying Issues Take Lead, But Secondary and Organized Properties Are Not Neglected

New York, Dec. 29.—Substantial inquiry for transportation shares affused appreciable activity and strength into the stock market today, after an irregular opening, in which several new low records for the year were made.

Drying of rails was most marked in the dividend paying issues at gains of one to six points, but secondary of the organized properties of roads traversing rich agricultural sections of the west and southwest were not neglected.

Oils, steels, equipments and motors displayed greater stability than at any time since the recent upheaval and various specialties of the tobacco, food, chemical and utility groups scored variable advances.

Altogether, the movement went far towards confirming the impression that marked liquidation of the past fortnight had its inception in definite purpose to establish tax payments for the expiring year.

The day's budget of news again included existing backward conditions in the industrial situation, the Iron Age for example, seeing no prospect of a "buying spurt" for several weeks.

It is believed, however, that the first few months of 1921 will witness a general demand for supplies, especially railway equipments.

Best prices of the day were registered in the last hour, when rails, under the guidance of Northern Pacific, overshadowed all other issues and drove the shorts to cover in many industrial stocks, a strong tone ruling at the close.

Trading in bonds, especially the convertible or speculative issues, was in keeping with the demand for stocks, but Liberty bonds and most industrial bonds were irregular. Old U. S. bonds were unchanged on call.

WELSH STAGES "COMEBACK"

Newark, N. J., Dec. 29. — Freddie Welsh, who retired after losing the world's lightweight boxing championship to Bennie Leonard in 1917, returned to the ring Tuesday and scored a technical knockout over Willie Green of Boston after four rounds of a 12-round match. Green refused to respond to the bell for the fifth round, claiming he had injured his shoulder. The former titleholder showed only flashes of his old-time form but had little difficulty in outboxing his opponent. Welsh weighed 137½ pounds and Green 135.

Shared Fame With Friend. It is said that virtually all the plays to which the names of Beaumont and Fletcher are attached were written by Fletcher alone. Beaumont was a friend of Fletcher's and lived with him, they had a kind of David and Jonathan affection for each other, and Beaumont's name is said to have gone on the plays more for sentimental reasons than for any other.

An Old Turtle. Philadelphia.—A land turtle, known to exceed easily fifty years in age, lives on the Ritchie farms, just north of Harbor, in the Old York Road section. John Ritchie occupies a large farm on the Jacksonville road. The other day he picked up the turtle in his garden. Initialed on the shell were these words, "William Kline, 1870." Inquiry developed that William Kline was a farmer near Johnstown, Pa., in 1870, that he found the turtle, initialed it and later released it in a piece of woodland, an acreage which is now part of the Ritchie farms.

FIGHT FOR PASSPORTS

15,000,000 People Anxious to Come to United States.

All Nationalities and Every Social and Economic Classification Are Represented.

New York.—Fifteen million men, women and children, of all social and economic classifications, representing every nationality in Europe, are fighting for passage to the United States, according to reports submitted by 17 transatlantic steamship company representatives to Frederick A. Wallis, commissioner of emigration at Ellis Island.

Every seaport city and town along the western and southern coasts of Europe, they said, is crowded with persons who in their eagerness to leave for this country have sold their houses and everything they possessed. Passport officers abroad were reported to be besieged with applicants.

The steamship representatives also expressed the opinion that 5,000,000 Germans and Austrians are packed up and ready to sail as soon as the United States makes peace with their governments.

Commissioner Wallis, who is going to Washington for a conference with members of the house and senate immigration committee said:

"Eighty-seven per cent of immigrants enter the United States through Ellis Island, and there are 2,000 persons there now who are shamefully crowded. There is no use denying the fact that we haven't enough room, and they are still coming."

"It would amaze one to know that on one particular day the Polish foreign office had 311,000 applications for passports."

More immigrants are arriving from Poland than from any other country, he said. Most of these people are Jewish.

TANK COTTAGE, STILL STANDING AT GREEN BAY, WIS., A PLACE OF MUCH INTEREST.

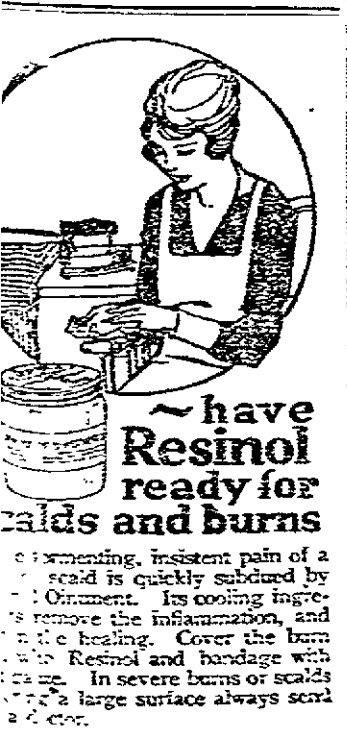

Green Bay, once the center of the fur trade, located at a toll gate to the interior of the Northwest, claims the distinction of having the oldest building standing in Wisconsin and probably the oldest building in the Northwest. The cottage was erected in 1776 at the outbreak of the Revolutionary war. Like the Cabildo of New Orleans, which is the oldest building in the Mississippi valley, the Tank cottage at Green Bay is no longer used for practical purposes but as a museum for relics of a former day.

It was in the Tank cottage at Green Bay that all legal business of the hamlet was transacted during the great fur regime. It was there that marriage contracts were made and there that the faithful gathered in prayer. It was at this house in 1812 that Americans made arrangements for aiding the United States during the war against Great Britain.

Joseph Roy, who came to Green Bay in 1776, was the builder of the historic cottage. His testimony is to the effect that he lived in the house until 1865, when he sold it to Judge Porter. The building was constructed of roughly sawn timbers and boarding made by a rip saw. Spaces between the upright timbers and the inner and outer walls were filled with brush and "plugged" with clay, mud plaster being used in early times to chink log cabins. In the center of the building is a great fire place, still smoked black from the logs which there have been burned to warm the visitors and tenants.

It was in about 1850 that an entirely new influence took charge of the quaint building. Nels Otto Tank, described as a Norwegian gentleman and Moravian missionary, an ardent student, highly educated, a fine linguist, speaking fluently six languages, became its owner. It was occupied by the Tank family until the death of Mrs. Tank in 1891. Then the Tank library, which was housed in this old building, was turned over to the Wisconsin Historical society, and in it were found books and maps which have been used by students and lawyers in settling boundary disputes between Canada and United States. In this house are to be found quaint treasures from Holland and brick-a-brac from various parts of the world, including the unique garments and furniture of an early pioneer day. Recently the building was purchased by persons interested in history, and has been preserved as an historical landmark and museum. It is visited by thousands every year.—Fred L. Holmes in the Boston Transcript.

HOUSE HAS LONG HISTORY.

Tank Cottage, Still Standing at Green Bay, Wis., a Place of Much Interest.

Green Bay, once the center of the fur trade, located at a toll gate to the interior of the Northwest, claims the distinction of having the oldest building standing in Wisconsin and probably the oldest building in the Northwest. The cottage was erected in 1776 at the outbreak of the Revolutionary war. Like the Cabildo of New Orleans, which is the oldest building in the Mississippi valley, the Tank cottage at Green Bay is no longer used for practical purposes but as a museum for relics of a former day.

It was in the Tank cottage at Green Bay that all legal business of the hamlet was transacted during the great fur regime. It was there that marriage contracts were made and there that the faithful gathered in prayer. It was at this house in 1812 that Americans made arrangements for aiding the United States during the war against Great Britain.

Joseph Roy, who came to Green Bay in 1776, was the builder of the historic cottage. His testimony is to the effect that he lived in the house until 1865, when he sold it to Judge Porter. The building was constructed of roughly sawn timbers and boarding made by a rip saw. Spaces between the upright timbers and the inner and outer walls were filled with brush and "plugged" with clay, mud plaster being used in early times to chink log cabins. In the center of the building is a great fire place, still smoked black from the logs which there have been burned to warm the visitors and tenants.

It was in about 1850 that an entirely new influence took charge of the quaint building. Nels Otto Tank, described as a Norwegian gentleman and Moravian missionary, an ardent student, highly educated, a fine linguist, speaking fluently six languages, became its owner. It was occupied by the Tank family until the death of Mrs. Tank in 1891. Then the Tank library, which was housed in this old building, was turned over to the Wisconsin Historical society, and in it were found books and maps which have been used by students and lawyers in settling boundary disputes between Canada and United States. In this house are to be found quaint treasures from Holland and brick-a-brac from various parts of the world, including the unique garments and furniture of an early pioneer day. Recently the building was purchased by persons interested in history, and has been preserved as an historical landmark and museum. It is visited by thousands every year.—Fred L. Holmes in the Boston Transcript.

CONSUME THEIR OWN WARES.

According to This Story, Chinese Vendors Are Pretty Slippery Customers to Deal With.

A street vendor who eats his own stock sounds like a weird kind of merchant to American ears. And yet he exists in China, according to the report of a Y. W. C. A. secretary stationed in Peking, where an industrial work room was part of the equipment of a social service project. A cooperative piece of work which was put into effect under the combined leadership of the Y. M. C. A., the American church board, and the Y. W. C. A.

"Men who were set up in business as street vendors ate their own stock until the social service workers decided that it was not safe to entrust a man with edible wares," writes Miss Alice Holmes, a Y. W. C. A. secretary.

Nor was this the only failing that the would-be business men had. If the stock consisted of articles which could not be eaten with safety, they consented to sell them, running away with all the earnings. Finally the Americans decided that no man should be set up in business unless he had somebody to stand guarantee for his good character. Under this safeguard an oriental gentleman whose family standing and personal integrity had been investigated, was entrusted with a large stock of athletic supplies which he peddled from house to house.

All went well for a time, for one cannot very conveniently make a dinner of tennis rackets or baseballs. But one fine day the merchant disappeared inside of a certain dwelling and although his companion waited patiently on the outside for many long hours, the salesman failed to reappear. At length the companion notified the police. An investigation revealed the fact that the salesman had gone into the house by the front gate and had left by a rear one.

That he made a thorough as well as an effective get-away is testified to by the fact that the peddler is still "wanted" by the Peking police.

Iodine Dangerous Drug.

Fumes of iodine have recently been urged as a method of administering that drug preferable to the usual method. It has been shown by experiments that fumes are absorbed through the skin, and when inhaled are absorbed by the lungs, but it was shown also that inhalation is very dangerous even in small quantities, especially when there is any disease of the respiratory passages.

Trouble at Colgate university has grown out of the recent "padding" of George W. Joel a New York freshman, for what was considered conduct unbecoming on the part of a new student to members of the senior classes. The matter finally grew into a conflict between the fraternity men and the "neutrals," and the whole student governing body has resigned under threat that practically the entire freshman class, including some of the most promising athletes, would not return after vacation, but would enter other colleges. It is believed that the troubles now are over.

Five federal prisoners in the Utica jail escaped early Tuesday morning by smashing the window bars and scaling the high jail yard fence. Up to Wednesday morning none of them had been rearrested.

LOUISE GLAUM in 'LOVE MADNESS'

Story by C. Gardner Sullivan
 Directed by Joseph Henabery

Distributed by W.W. ROBINSON & CO. INC.

MEN! WOMEN!

If you were condemned to die would you want the woman you loved to give her good name to save you? Louise Glaum, as Mary Norwood in this great production, penetrates to the lowest depths of the underworld—and emerges triumphant. It is the story of a woman's sacrifice and a man's regeneration.

If the man you loved was condemned to die is there anything you would stop at to save him? Louise Glaum in "Love Madness" says "No!" and so, with all the lure of a beautiful body, she traps a crafty plotter and brings her husband back from the Valley of Shadows.

HONOR ODD FELLOWS

Centennial Lodge Presents Emblems at Roll Call Meeting Last Night—An Odd Fellow for 40 Years.

An unusually interesting feature of the annual roll call meeting of Centennial lodge, No. 447, I. O. O. F., held last night in the local temple, was the presentation of veteran's buttons to men who have been Odd Fellows for 15 years or longer. There was a large attendance at the meeting, about 100 lodgesmen being on hand to witness the honoring of loyal Odd Fellows.

The oldest Odd Fellow present, in point of years as a member of the organization, was Louis Vrooman of this city, who has been a member of Centennial lodge ever since it was chartered 49 years ago. As he was presented the button, he was feelingly complimented on his long term of service and the wish that he might be an enthusiastic Odd Fellow for many years to come was expressed. Mr. Vrooman and Charles S. Smith, who also has been a member of the lodge for 40 years but was unable to be present last night, are believed to be the only remaining charter members of the local lodge.

Other veteran buttons were presented last night to the following Odd Fellows:
Thirty years — W. C. Gurney and George Waters. Twenty-five years — John Brown, George F. Koehler, Thomas Lord, C. C. Wallace, Frank Fairchild and George H. Westcott.

The following men have been awarded the emblems but were not present last night to receive them, and they will be either mailed or delivered to them:
Forty years — Charles S. Smith. Thirty years — George W. Fairchild, George Shuman, Cyrus Whitlock and Frank Tokey. Twenty-five years — George H. Chandler, George W. Smith, Amos Babcock, U. A. Ferguson, E. D. Hirsch, Edwin Jones, Harry Ostrander, W. W. Rowe, Duane Rich and Charles Spafford.

Most of these men are still members of the Oneonta lodge, although several are now located in other cities. The buttons bear the I. O. O. F. insignia but are prized most highly because of the significance that is attached to them.

Following the presentation last night, a brief entertainment consisting of a comedy skit by Earl Edwards and other attractions, was put on for the benefit of the Odd Fellows, and as indicated by the laughter was greatly enjoyed. Refreshments that always hit the right spot added to the satisfaction of the evening.

During the evening, the roll of Centennial lodge was called and the members who were present answered to the roll.

Falls on Ice.

Mrs. May Platten, residing at 25 Grand street, had the misfortune to fall on the ice in front of her home Tuesday evening at 8 o'clock. She was assisted to the house and Dr. Mills was summoned. It was found that she had broken her left leg below the knee. The bones were set by Dr. Mills and she was reported as doing as well as could be expected yesterday.

Herrieff Says

If there's one thing more than another to make a fellow look forward to the New Year, it's a cold in the head, especially when you go to the dentist for a check-up and find out that you've got a cold and find him with a stuffed-up nose. It reminds one that there's most always an opportunity to buy hair restorer from a bald-headed barber. At all events, the writer speaks from experience and at present his head is just about clear enough to suggest that if you overlooked some friend for Xmas, a New Year's gift will fill the bill. If it's anything for a man, please remember that Herrieff's clothes shop is known as the home of good things which men like to wear.

SAVE 100 LIVES

Otego Branch American Red Cross
Contributes \$756.48 to Fund

FUND NEARS CITY'S QUOTA

Residents of Meridale and Vicinity Contribute \$100 and Danley and Wright an Additional Hundred for European Relief Council—Last Day of Year Excellent One for Liberal Contribution—Who Will Aid Today?

One hundred of the suffering children of Europe will be fed and their lives doubtless saved by reason of the contributions received at this office for the European Relief Council from generous people of this section, the contributions aggregating over \$1,000, by far the largest amount received in a single day since the campaign was opened.

The largest amount, \$756.48, came from the Otego branch of the American Red Cross, the executive board of which had its final meeting on Tuesday and voted to contribute the balance in the treasury, amounting to the sum named, to the Relief Council, and the check was accordingly forwarded to this office for the headquarters in New York.

Mrs. Tilley Blakely, as chairman of the executive committee, voiced the sentiment of the members in a note to this office, saying that they felt the money could not possibly do more good than for this cause and it was desired that it be sent to the Relief Council, in view of the fact that the American Red Cross is one of the organizations composing the council. The wisdom of the Otego board cannot be questioned.

Another sizable donation, one of \$100, which on other days than yesterday would have been the largest received, came from the good people of Meridale and vicinity. It was handed in at this office by E. S. Blazebay of that place, with the request that it be credited as above. There were some checks from individuals, but as others may have contributed like or even larger amounts it is credited to the people of the community as a lump sum. They are to be commended for their generosity.

The firm of Danley & Wright of this city also added another \$100 donation, evidently resolved to complete the year with an effort to aid the sufferers across the sea. The firm's generous impulses to save the starving children is worthy of emulation by others. Today is the day to act that the year may be closed with an act of generosity.

The list for yesterday follows:
Otego branch Red Cross, \$756.48
People of Meridale and vicinity, 100.00
Danley & Wright, 100.00

THE CRY OF THE CHILDREN.

It seems to me that the people of Oneonta have been quick to hear the cry of these starving children. I think that the children of Oneonta have been especially generous in their contributions to this worthy cause. Through the gifts thus far received, over five hundred children will be saved from starvation. Furthermore, the end is not yet; for we have just begun to give. Ten dollars will save a child from starvation!

200 KIDDIES MADE HAPPY

Christmas Tree and Entertainment at Salvation Army Hall Last Night Spread Cheer Among Poor Families.

There was a happy lot of kiddies at Salvation Army hall last night, when the Christmas exercises of the Sunday school were held. In addition to the 50 regular members of the school, nearly 150 needy children of the city, who otherwise would not experience the joys of Christmas and Santa Claus, were present. Numerous parents also were on hand to watch the fun, so taken all together it was some happy bunch. Every chair in the hall was occupied, and several persons were obliged to stand throughout the exercises.

The evening's entertainment opened with a program of songs, recitations and dialogues given by the children of the Sunday school. The various numbers on the program were carried out in fine style, but the older folks could see that the youngsters didn't care so much about the program—what they wanted was Santa Claus. An the good old Saint Nick soon appeared on the scene in person, rigged up in all his finery, which was slightly soiled by the trip down the chimney. The expression of wide-eyed (and wide-mouthed) wonderment on the faces of the children was a sight worth going a long way to see, as in many instances this was the first time that the children had seen Santa in the flesh.

The new visitor proceeded to make himself at home and delighted the hearts of the children by passing out gifts removed from the Christmas tree, which was loaded down with good things. Every one of the 200 children present received an orange, a bag of mixed nuts, a box of candy, and one other gift, in most instances an educational game. The gifts for the regular Sunday school scholars were paid for out of the offerings that are taken throughout the year at the sessions of the Sunday school, but the presents for the 150 other kiddies who enjoyed the evening's entertainment were purchased with money donated by the good citizens of Oneonta.

Taken altogether, Christmas at the Salvation Army was celebrated in a manner that will linger long in the memories of those present, especially the children of poor families. Captain Harrison and his assistants spent much time preparing for the event, but their work was rewarded by the unmistakable enjoyment of the 200 children last night.

Charbel Eldred at Hospital.

Miss Charbel Eldred, daughter of Mr. and Mrs. Charles L. Eldred of 121 East street, underwent an operation for mastoiditis yesterday morning at the Fox Memorial hospital. The operation was performed by Dr. McMenamin, assisted by Dr. Mills, and at last reports the patient was doing nicely, although she probably will be confined to the hospital for two weeks.

THE UNIVERSAL CAR

"The Ford Coupe"

Here is one of the most useful of all closed cars. Specifically so when not more than two or three are to be accommodated with reliable car service. The Ford Coupe is a mighty cosy car, in that it is absolutely water-tight, at the same time with its sliding plate glass windows you can have an open car, to all intents and purposes, in a couple of minutes. So it doesn't make any difference what the weather may be, rain or shine, summer or winter, in the Ford Coupe you have an enclosed car of comfort and service. What more do you want?

It has proven particularly a valuable car for traveling salesmen, physicians, engineers, architects, and others who have much out-of-door work all the year around. We have never been able to fully meet all demands for the Ford Coupe, but with the increased producing capacities of the factory we are now able to make reasonably prompt deliveries. Yet we urge you to leave your order with as little delay as possible—our allotment is limited.

OFFICIALS AT WORK

Sheriff, Two State Troopers and a Private Detective Investigating the Kottighe Murder Mystery. Which Remains Unsolved — Many Rumors Heard.

Sheriff Vordemark, two state troopers and a detective engaged for the investigation were in Kottighe yesterday investigating the mysterious shooting of Fred Stronigan on Christmas eve, and while they announced that there had been no striking developments, it was stated that they had gathered some facts which were considered important and which may result in fixing the crime later.

It is stated that the person suspected by many of the neighbors and residing not far from the scene of the crime has been in consultation with a criminal attorney and has been kept under surveillance from the first. It is stated by some that the sheriff visited his home the night after the crime, but was refused admission and did not force an entrance.

It is stated that the shot which took effect in the body of Stronigan were No. 3 shot, a size rarely used, and that search is being made to locate anyone having shot of this size in their possession in that locality.

Then, too, the admission on the part of Mrs. Stronigan that she had feared for some time that he would be shot and declared before going to the barn that she believed he had been shot, may have some bearing if she will disclose what reason she had to fear for the safety of her husband's life.

It is stated by some quite familiar with the case that the person against whom suspicion has rested from the first, had had some trouble with Stronigan over drawing milk to the creamery and the murdered man had refused long to draw his (the neighbor's) milk. There is a statement current that the neighbor had declared before the day of the crime, "I will get him yet."

There is talk also that the brother of Stronigan had had some difficulty with the neighbor and that possibly a gunman had been hired to visit the locality and do the shooting and that he had visited the wrong farm.

Meanwhile, every day that passes without the discovery of evidence that will warrant an arrest at least on suspicion renders less the probability of the arrest and punishment of the offender. It is not unlikely that evidence that could have been secured shortly after the crime has now been covered.

January first is a mizzly good time to be square with the world. Will all persons having accounts at my store please be guided accordingly. Lavern Palmer, 125 Main street. 31

CLARICE HUGHSON A BRIDE

Daughter of Mr. and Mrs. L. B. Green Married Yesterday Noon to Dayton W. Babcock of East Worcester.

The marriage of Miss Clarice E. Hughson of this city to Dayton W. Babcock of East Worcester, took place yesterday noon at the home of the bride's parents, Mr. and Mrs. L. B. Green, 11 Elm street. The ceremony was performed by the bride's pastor, Rev. Dr. B. M. Johns of the First Methodist church, in the presence of a company of about 40 relatives and intimate personal friends of the bride and groom. The ring service was used.

The parlor was attractively decorated for the occasion with evergreens and roses, and as the bride's party entered, Miss Helen Winder, the bride's maid, made a pleasing appearance in a gown of white headed gown with red and orange blossoms that were worn by her mother and great-aunt at their wedding years before, and she carried a shower bouquet of white roses. Miss Ora Babcock, sister of the groom, acted as bridesmaid. She wore white neogrette, and carried pink roses. T. Percy Hughson, the bride's brother, was best man.

Following the ceremony and congratulations a beautiful wedding dinner was served in the dining room which was decorated in evergreens with white streamers extending from the corners of the table to the chandeliers. Later in the afternoon the young couple departed amid a shower of confetti for a brief wedding trip to points unknown. Upon their return, they will be at home after January 5 in East Worcester village, where the groom is a respected farmer. In the spring, they plan to take possession of their farm.

The bride, who has been a resident of Oneonta for the past ten years, was graduated from the local high school in 1916, and from the State Normal two years later. During the first year following her graduation, she taught in East Worcester, but for the second year went to Schenectady, returning to East Worcester again this year, where she plans to finish out the year. Both in Oneonta and East Worcester she had won a large circle of friends who will join in congratulating her and in wishing that life holds only the best in store for her. She was the recipient of many tokens of esteem, including a large sum of money, cut glass, silver, linen, and other gifts.

Mr. Babcock is a son of Mr. and Mrs. E. J. Babcock, respected residents of East Worcester, and has spent practically his whole life in that village. After attending high school he began work as a farmer and is one of the best-known young men of that vicinity.

Among the guests in attendance at the wedding were Mr. and Mrs. E. J. Babcock, Miss Ora Babcock, Mrs. Wayne Babcock, Misses Athelia and Eunice Babcock, and David Babcock, all of East Worcester; Mr. and Mrs. Raymond Potter of Worcester, Miss Anna M. Wilson of Cold Spring, Miss Lucy Hubbard of Cooperstown Junction, Miss Constance Warren of St. Louis, Mo., Charles Place and Miss Edith Place of Otego; Mr. and Mrs. L. E. Brownson, Miss Mary Brownson, Samuel Miller, Miss Lena Miller, Miss Alice Miller, Mr. and Mrs. Grant Green and Miss Ruth Green, all of Oneonta.

In Memory of Mrs. Ella Potter Judd. Died December 30, 1919.

One year ago she was sitting by our side, Now she is with her Savior, ever to abide; A place is vacant that never can be filled, The gentle voice forever to human ear is stilled.

We sadly miss her presence: loving, kind and true, The presence that from childhood's sunny days we knew: This precious boon, our Father's love to us had given, Has left her earthly home to be with Him in Heaven.

Tribute of a friend.

SOMEONE SAYS IT'S SLIPPERY. Difficulties of Motorist and Pedestrian Herein Recounted.

The roads about the country are now in about as treacherous a condition as imaginable, and motorists report that it is necessary to exercise the utmost caution to avoid accidents. The Christmas snowfall has been transformed into ice during the week and where one path has been followed entirely, it is some slippery going. Another difficulty encountered is in the ruts, it being a hard task to get out of them once you're in, especially where they are several inches deep. One motorist reported last night that on a trip he made to a nearby town, he came across at one point five autos that had been held up trying to pass other cars and being unable to get out of the ruts.

The troubles of the motorist, however, are no worse than those of the pedestrian, and "Safety first, use the road" seems to have been adopted as a general slogan of Oneonta citizens. The walks are in an icy condition and if one can keep his feet he is doing pretty well. The situation has been relieved in numerous instances, however, by the spreading of sawdust, sand or ashes over the ice.

WOULD RECOVER CAR

Ford Taken by Police Department Sought by Louis Yager — Alleges That He Bought Car — Once Admitted He Knew It Was Stolen.

Acting City Judge Lynn W. Hathaway has a knotty problem to decide in rendering a verdict in the action brought by Louis Yager to recover possession of the Ford touring car now in the hands of the police department, which the officers of that department took from him at the time several stolen cars were recovered and returned to their owners.

At the time the car was taken Yager made no vigorous opposition and is reported to have admitted that he knew that the car had been stolen when he acquired it. He bought, according to the evidence, from Lee Liable who disposed of several cars here that were later claimed by owners elsewhere. He paid \$200 for the car.

When the roundup of cars took place this Ford car with its engine number mutilated was recovered. Efforts to locate the owner have been fruitless and thus far the Ford selling department has been unable to state to whom it was originally shipped from the factory.

The car was for a time kept at one of the city garages at an expense of \$1 per day for storage but the police commission directed that it be taken from the garage and consent was given that the officers of the department when performing official duties use the car. This has caused some persons to get busy and Yager commenced an action to recover it. Attorney George L. Becker represented Yager and Owen C. Becker appeared for the police department. The case was quite vigorously contested, it being intimated that members of the fire department were willing witnesses for Yager in the proceedings.

Judge Hathaway expressed some doubt of the jurisdiction of the court in the proceedings. Briefs are to be submitted by the attorneys upon this point as well as others involved in the case within 20 days, after which Judge Hathaway promises a decision in the case.

New Boys' Council at "Y."

The lure of "coasting weather" somewhat reduced the attendance at the regular meeting of the Y. M. C. A. Boys' club, held last evening, but the boys that were present all had a good time. At a business meeting, the following boys were appointed members of the council for the ensuing six months: Jack Miller, Frank Jenks, Lewis Young, Kenneth Wheeler, Morton Shepard, Bruce Shear, Lloyd Berner, Joseph Faber and Arthur Benson. These boys are requested to meet at the "Y" this afternoon at 2 o'clock to elect officers for the club. It was decided last night to order "Y" emblems for all members of the club. After the meeting, stories and jokes were told for the entertainment of the boys, and it was with difficulty at closing time that Associate Secretary Stahk persuaded the youngsters it was "time for home."

OPPOSES DAYLIGHT SAVING

Congressman Hill Says Farmers Are Not Prejudiced But Nature Enters In—Will Not Favor Re-enactment.

Washington, Dec. 29.—A new and vigorous effort to bring about action by congress to put "daylight saving" into legal effect in the eastern time zone is being made by important commercial organizations and manufacturers in the large cities on the Atlantic coast.

Within the past few days, many evidences of the movement have come to the attention of Representative William H. Hill in the form of letters from manufacturers and resolutions adopted by chambers of commerce and boards of trade.

The proposal seeks to have the clock set ahead an hour the last Sunday in April and retarded for an hour the last Sunday in September of each year, in all points of the United States within the eastern time zone, which includes generally all the territory east of the longitude of Cleveland, O.

An important manufacturer in New York city in writing Congressman Hill expressed the opinion that there is opposition to the change only on the part of a few farmers, and that their opposition is due to "pure prejudice." The manufacturer in his argument stated that for some years prior to legalizing daylight saving as a war measure the plan had been operated in his own factories with satisfactory results. The Bronx Board of Trade, the Silk Association of America and other representative commercial organizations also have adopted resolutions in favor of daylight saving within the eastern time zone.

Congressman Replies.

In answering the communications, Representative Hill has made clear that his opinions have undergone no change since he voted at the first session of the present congress to repeal the "daylight saving" law. To the one who stated that the farmers are blinded by prejudice, Mr. Hill took issue as follows:

"I fear that you are under a misapprehension of facts. The opposition to 'daylight saving' on the part of the farmers in this locality is due not to prejudice, but to conditions imposed by nature. They are large producers of milk and hay. Cows are not amenable to reason. They do not willingly change their habits.

"If the farmer arbitrarily changes the time for milking, he will pay the penalty by a serious loss of output, to say nothing of the personal inconvenience that he will suffer. Advance train schedules by an hour, and you force the farmer to advance milking time by an hour. He now milks, say, at 4 a. m. and 4 p. m. 'Daylight saving' will force him to milk at 3 a. m. and 3 p. m.

"Take haying: The farmer does not make hay by the clock. He can not cut the grass or handle it until the dew is evaporated. If you advance the clock by an hour, he will lose an hour every morning during haying. The morning chores will be done, but the grass will still be wet, and he must wait an hour before he can make hay.

"These are but two instances of the causes for what you term 'prejudice' of the farmer. Before 'daylight saving' was legalized as a war measure, you operated the plan in your factory with success without enactment by the congress. If you find that 'daylight saving' is beneficial to your employees, why not continue as you did before and put the plan into effect? You would then get the benefits and no hardships would be imposed upon those who would find the plan not adaptable to their affairs."

GOT THE SQUIRREL

Hunter Stopped to Swat Mosquito, but It Helped Him Aim.

That the League of Nations, or some other competent authority, bar mosquitoes during hunting season is the earnest desire of Charles Yockey, plumber, of Woodfield, O.

Numerous able-bodied representatives of this type of pest infest Monroe county woods.

While on a hunting expedition recently Yockey spied a squirrel in a tree.

But he was kept busy swatting the skeeters.

Just as he had everything ready to bag his game a mosquito lit on his nose.

In the act of swatting the insect he gave his nose a wallop and accidentally fired his gun. Something fell. It was the squirrel.

Yockey went home with both the squirrel and a swollen nose.

PLANNING GREAT FLEET

Navy Department's Program Calls for Ten Superdreadnaughts.

A program calling for the construction of ten superdreadnaughts and six battle cruisers will be presented to congress by the Navy department. These warships are to be built within a period of three years.

Particular attention is being devoted to two new types of so-called auxiliary cruisers. The first type has been named "destroyer leader." As planned, they approach the battleship in size, speed and offensive power.

The other type is a light cruiser of speed heretofore unknown in any American cruiser.

A Repentant Thief.

H. Thompson, a well-known farmer of Dawsboro, South Lincolnshire, has received back through the post \$115 in treasury notes, which had disappeared in mysterious circumstances. The money had been given to a foreman to pay wages, and the man put the notes in his waist coat pocket. He put the garment on the ground while he was working, and the notes disappeared. The envelope containing the returned money bore the local postmark and the police are investigating the matter.—London Times.

The Squire's Dilemma.

Squire L. M. Collis, the genial miller at Orangeburg, met with a rather disastrous accident at his fishing camp on the Kinney which brought a rather abrupt end to his fishing trip. The squire was landing a good sized one in his boat in the middle of one of the deepest holes in the stream when he turned his head to emit a sudden and violent gush of air through the mouth and nostrils. In other words, to sneeze, and his teeth were thrown violently into the stream. His Maysville friends about the courthouse were not quite so cruel as to ask him whether or not he landed the big fish. The squire was in the city today to place an order for another pair and it was a rush order, too, for spring chicken time is here and butterbean time is nigh.—Maysville Ledger.

Lose by Impatience.

Every cloud has its silver lining, but some folks are so impatient they just can't wait for that side to turn out.

SCION OF KINGS DESTITUTE

Brother of Late President de Arriaga of Portugal Is in the Poorhouse.

Lisbon, Portugal.—The newspaper Seculo, says that Dr. Jose de Arriaga, anniversary man, historian, critic and servant and brother of the late President Manuel de Arriaga, is an inmate of the Lisbon poorhouse in ill health.

Dr. Jose de Arriaga resided for a long time in Brazil, where he collected notes on Brazilian life and literature. After his return to Portugal, when he was arranging with an editor for the publication of a book on Brazil, he was taken ill and was obliged, from utter lack of resources, to take refuge in the poorhouse.

He is a direct descendant of King Alphonso III of Portugal, in the seventeenth generation, and of King Hamiro II of Leon and Castile, and the twenty-fifth grandson of Hugh Capet, first king of France.

But It Pays "Anyhow."

"De man dat 'tends strictly to his own business," said Uncle Eben, "sometimes don't get no credit 'cep' for being unsociable."
